for your child

Mijn Kinddossier

Digital Health Care File for your child

Mijn Kinddossier, is the online portal for parents giving you insight into the care of your child at JGZ. It is also the site where you can easily view and change appointments online.

What can you do with Mijn Kinddossier?

You as a parent can at any time:

- View and change appointments online
- View growth charts and the immunisation programme
- Read the advice given
- Read reliable information on parenting
- Keep track of your child's milestones in a personal diary

How does Mijn Kinddossier work?

Go to www.mijnkinddossier.nl and log in with your DigiD username and password. If you do not have a DigiD, please request one on www.digid.nl

Are you logging in for the first time? Then fill in all contact details. In order to be able to make optimal use of Mijn Kinddossier, your e-mail address is required. So check this carefully!

Viewing or changing appointments

You can view your appointments with JGZ on Mijn Kinddossier. Would you like to reschedule the appointment? You can do this online using Mijn Kinddossier.

Growth and vaccination charts

At JGZ we measure and weigh your child regularly. We then convert these data into a growth chart, which you can view in Mijn Kinddossier. You can also view the immunisation programme. This shows you which vaccinations your child has already received and which ones are planned.

Personal advice

During an appointment with JGZ, you often receive specific advice about, for example, nutrition, sleeping or other parenting issues. The information went too quickly for you, or would you like to read the advice again? Just access Mijn Kinddossier.

Information

In Mijn Kinddossier you can read all about how JGZ works and what to expect. An overview of useful brochures and links provides quick access to reliable information about upbringing and the development of your child.

Questionnaires

In the future Mijn Kinddossier will be updated, making it possible to complete digital questionnaires prior to an appointment. This will enable the professional to provide personal care.

Diary

In Mijn Kinddossier you can keep a personal diary. Here you can, for example, write down any milestones, such as the first words, special events or funny statements made by your child. Fun to read back later! This diary can only be viewed by you.

Privacy and security

Using Mijn Kinddossier you can view part of the Digital Dossier Jeugd-gezondheidszorg (Digital Health Care File for Young People). Mijn Kinddossier is only accessible to you as a parent. So not to other healthcare providers. You will need a DigiD to log in. This ensures that your child's details are well secured.

Contact

Any questions about Mijn Kinddossier?
Please send an e-mail to info@jgzzhw.nl.

Unable to make an appointment? Just call our Contact Office,
telephone number: 088 054 99 99 (Mon to Fri from 08.00 to 17.00).
